Current Therapy In Pain 1st
1. Introduction. Groin pain is a frequent complaint in athletes. It occurs commonly in sports involving repeated sprinting, twisting, kicking and cutting such as soccer, rugby, Australian rules football and (ice-) hockey (Bradshaw and McCrory, 1997, Jansen et al., 2008b). In football groin injuries have been reported to account for about 10% of all injuries (Hawkins et al., 2001).

Trisoma® - Myofascial Trigger Point Therapy Muscle pain is one of the more frequent causes of dysfunction of modern man, yet it is frequently easy to treat. Muscle tissue is the largest organ in the body; it is metabolically active, filled with nerves and the “primary target of the wear and tear of daily activities, but it is the bones, joints, bursae and nerves on which physicians ...
