Women And Employment In Nineteenth

Women's history is the study of the role that women have played in history and the methods required to do so. It includes the study of the history of the growth of woman's rights throughout recorded history, personal achievement over a period of time, the examination of individual and groups of women of historical significance, and the effect that historical events have had on women.

It is one of the great ironies of American labor history that enslaved workers toiled at a wider variety of skilled tasks than did their descendants who were free. Slave owners had an economic incentive to exploit the multifaceted talents of blacks in the craft shop as well as in the kitchen and field. But after emancipation, whites attempted to limit blacks to menial jobs.
